

Logic and Cognition Conference

16–17 October 2026
Poznań, Poland

Friday, 16 October 2026

Time	Authors	Presentation
08:45–09:00	Registration and welcome coffee	
09:00–09:15	Opening of the conference	
09:15–10:15	Ruth Byrne	Invited lecture
10:15–10:45	Coffee break	
Panel 1: Language, Discourse, and Reasoning		
10:45–11:15	Barbara Konat, Angelo Delliponti, Eliza Wessel, Piotr Bekier	Extending Inference Anchoring Theory with Phatic and Emotive Speech Acts for the Analysis of Natural Language Argumentation
11:15–11:45	Nirvana Ribić	Suppressing the Suppression Effect: The Role of Relevance in Hypothetical Syllogism and Verbal Reasoning
11:45–12:15	Dorota Leszczyńska- Jasion	Exploring logics of interrogative attitudes
12:15–12:45	Krzysztof Dyrda	Reasoning-Tracking Properties of Theme-Rheme Structure and its Logic
12:45–14:15	Lunch break	
14:15–15:15	Jared Millson	Invited lecture
15:15–15:30	Coffee break	
Panel 2: Bounded Reasoning and Artificial Intelligence		
15:30–16:00	Thamanna Sunil S, Prakash Mondal	On the Logic of Meaning in Large Language Models
16:00–16:30	Paweł Łupkowski, Tomáš Ondráček	Conceptualising Chain-of-Thought Reasoning in LLMs through IEL’s Erotetic Search Scenarios
16:30–17:00	Paolo Baldi, Fabio Aurelio D’Asaro	Non-monotonic bounded reasoners
19:30	Conference dinner	

Logic and Cognition Conference

16–17 October 2026
Poznań, Poland

Saturday, 17 October 2026

Time	Authors	Presentation
10:00–11:00	Andrzej Wiśniewski	Invited lecture
11:00–11:30	Coffee break	
Panel 3: Formal Logic and Semantics		
11:30–12:00	Paweł Płaczek, Cheng-Syuan Wan	Involutive Nonassociative Lambek Calculus with Nonlogical Axioms
12:00–12:30	Zuzanna Rygiewicz	Lattice of Extensions of KR Logic
12:30–13:00	Szymon Chlebowski, Yaroslav Petrukhin	Propositional Definite Descriptions in Non-Fregean Free Logic
13:00–13:30	Jarosław Boruszewski	Truth, Self-reference and Semantic Information. An Analysis of the Informational Liar Paradox
13:30–15:00	Lunch break	
15:00–16:00	Ivano Ciardelli	Invited lecture
16:00–16:15	Coffee break	
Panel 4: Human Reasoning and Cognitive Semantics		
16:15–16:45	Mariusz Urbański, Aleksandra Wasielewska	What Makes Abductions Good? Empirically Grounded Evaluation Criteria for Abductive Reasoning
16:45–17:15	Mariusz Urbański, Róża Sateja	Flexible by Necessity, Captured by Context: Material-Relative Correctness and Carry-over in Visuospatial Deduction
17:15–17:45	Mariya Shajan, Prakash Mondal	Marrying Logic with Cognition: The Case of Color Semantics
17:45–18:00	Closing remarks
